# Against All Odds History

In November 1994, Jerry Kaplan awoke with a major pain in his back. After a series of tests in Nashua and Boston,

he was diagnosed with liver cancer. He was told that he had 3 to 6 months to live. But Jerry did not give up. With the help of family and extensive research, Jerry found and contacted a surgeon who specialized in this type of liver cancer and went to California to have complex liver surgery to remove his tumor. After his return to Nashua he underwent a nine-month regimen of chemotherapy and radiation. Six years later, **against all odds**, Jerry celebrated his 60th birthday.

In 1998, as a result of his experience and his desire to help other cancer patients advocate for themselves,

Jerry founded **Against All Odds**, a non-profit 501(c)(3) organization. The agency's mission is to provide support to cancer patients, survivors, and their families. The agency, through its fundraising and volunteer base, helps patients research their cancer and access support services. The agency also provides items that help make therapy less stressful and life more comfortable.

Among the many accomplishments, **Against All Odds** has contributed funding for a patient resource room in the Oncology Center at St. Joseph Hospital for the greater Nashua community. In the future **Against All Odds** expects to open similar centers to other medical institutions in Nashua.

Although Jerry ultimately lost his battle against cancer, his dream to help others continues through **Against All Odds**.
